Camera Registration Program

Camera Registration is the Amherst Police Department's newest crime prevention and investigation tool.

Registering your camera not only helps deter crime, but assists the department in its overall crime prevention strategy in your neighborhood.

Protect yourself, your family, and your community by registering your camera with the Amherst Police Department.

Become a part of the Amherst Police Department's Camera Registration Program!

Registration

Registration is simple and only takes about 10 minutes to complete the three steps. You will provide basic information and tell us where your cameras are located. You may delete your registration at any time.

To register online visit: amherst.ny.us and click on “Police” under the departments section in the left column. From there click on “Surveillance Camera Registration Program” under the Programs & Services section. The online registration form is at the bottom of the page.

[Click this link for online submission form](#)

Verification

Once you have completed the registration and verification process, a member of the department will follow up with you to confirm your registration.

Implementation

You will only be contacted by the Amherst Police Department in the future if there is a criminal incident in the vicinity of your security camera. Police personnel, if necessary, may request a copy of any video captured by your camera, which may assist in the investigation of a crime.
